

# Invitation for Participation

## 77<sup>th</sup> Workshop

### HIGH END ANALYSIS OF BUILDINGS

Dear Sir/Madam,

The principal objective of the workshop 77 is to revisit various types of analysis, popularly used as on date and also understand the concept behind High End Analysis. We will try to showcase few such analyses for real life buildings. We will also try check and compare the results for different types of framing systems and probably come out with suggested guidelines for applicability at the end of workshop and panel discussion.

In view of above, EFC is organizing
